

# Implementing the Joint Crediting Mechanism (JCM) and creating various benefits for stakeholders

**10:30-12:00 (UTC), 8 November 2021 @ Japan Pavilion**

Livestreaming on YouTube: <https://www.youtube.com/channel/UCgi2ONiz1XMpxT9tdMGKcnw>

The JCM is implemented with 17 partner countries to promote diffusion of decarbonizing technologies and GHG mitigation. In addition, the JCM generates various co-benefits which contribute to sustainable development including SDGs in partner countries. This event will focus on such JCM's roles and benefits through the survey result by JCM relevant organizations and the latest updates from partner countries. In the panel discussion, perspectives and expectations for expanding JCM's benefit will be discussed.

## Introduction

**Moderator : Mr. Makoto Kato**, Board Member/Principal Researcher, OECC
