

Promoting and expanding implementation of the Joint Crediting Mechanism (JCM)

10:30-12:00 (UTC), 8 November 2022

The JCM has been promoting diffusion of decarbonizing technologies since its start in 2013. Currently, the number of JCM partner countries have reached 24 and the number of selected JCM Model Projects have reached over 200. This side event will focus on latest updates of the JCM, and benefits generated from implementing the JCM such as contribution to achieve NDCs and SDGs to promote appropriate understanding on the JCM by stakeholders attending to COP27.

Agenda

Moderator : Mr. Makoto Kato, Board Member/Principal Researcher, OECC
