

JICA's climate change countermeasures to achieve the Paris Agreement goals

--Deepening the understanding of the synergies and trade-offs with the sustainable development in the perspective of co-benefit approach--

15:00-16:30(EET), 9 November 2022

JICA places emphasis on co-benefit climate change countermeasures when promoting projects in developing countries. This side event will introduce the efforts in developing countries to achieve the Paris Agreement from the perspective of the co-benefits and discuss climate change countermeasures and their relationship with sustainable development, deepening the understanding of the synergies and trade-offs between them.

Agenda
