

Private Sector on the Rise Forging Business-to-Government Partnership and Sustainability Reporting to enhance Corporate Efforts towards Net Zero Emission in Southeast Asia

8:30-10:00(UTC)/10:30-12:00(Egypt time(UTC+2))
12 November 2022

Coupled with the recap of existing support tools and framework for decarbonization and long-term net zero emission pathway, the dialogue collectively discusses the opportunities and challenges, as well as how the role of administrations, institutions, and enterprises can be best harnessed to unlock challenges to further leverage corporate efforts.
