

4th Capacity-building Hub PCCB Focus Area Day

Overseas Environmental Cooperation Center, Japan Capacity building on effective engagement of different stakeholders in NDC implementation -Experiences from Southeast Asia-

Concept Note

Background:

Developing country governments are in efforts to accelerate the implementation of their nationally determined contributions (NDC). With recent updates with higher ambitious target in 2030, together with Net Zero Emission goal as their long-term strategies (LTS), there are growing interests to scale up climate action through engagement of different stakeholders, such as the private sector, local governments, academia, non-government organizations, citizens, etc.

As the role of the national government may be defined as giving the oversight and facilitate climate actions in respective stakeholders, capacity-building of governments to effectively engage stakeholder is crucial. In turn, capacity-building of stakeholders toward the implementation of NDC is also important, as their contribution can affect the success of the scenario of mitigation and adaptation efforts.

Objectives:

The objective of the session will introduce views and knowledge regarding ways to promote effective stakeholders engagement in NDC implementation, through capacity building activities. In particular, the session will invite panelists who are engaged in capacity-building practices from government, bilateral and multilateral development cooperation agencies, etc. Also, the case studies will be shared from the experiences of Southeast Asian countries, such as Viet Nam, Thailand and the Philippines.

Format:

Venue: 4th Capacity-building Hub within COP27 (Blue zone)

Location: Sharm El-Sheikh, Egypt

Date: 11:35-12:35 November 16th, 2022, Wednesday

Length: 60 minutes

Language: English

General Structure:

	Time	Contents	Lead
Moderator: Makoto Kato, OECC			
1. Opening			
	10 min	Setting the scene	Makoto Kato, Member, Board of Director, OECC
2. Experiences with/perspective for capacity-building on effective stakeholders' engagement			
2.1	10min	Case of Viet Nam: Support for Planning and Implementation of the Nationally Determined Contributions in Vietnam (SPI-NDC)	Dr. Luong Quang Huy, Ministry of Natural Resources and Environment, Viet Nam,
2.2	10min	Gender perspective in the engagement of the private sector capacity building	Ms. Nagakuro Kisato, Researcher, Overseas Environmental Cooperation Center, Japan
2.3	10min	PCCB Toolkit to Assess Capacity Building Gaps and Needs -Aspects on stakeholders' engagement-	Mr. Scott Willis
3. Discussion			
3.	20 minutes	<ul style="list-style-type: none">✧ What are useful approaches to strengthen capacity of governments to effectively engage stakeholders?✧ What kind of roles do we expect to key stakeholders when they participate in NDC implementation?✧ How can/should development cooperation partners facilitate such capacity building?	Moderated by Mr. Makoto Kato, OECC
